

UPDATE - INSPECTION OF SHARED EDUCATION

Dear Colleagues

We have had several enquiries about whether or not we are participating in the inspection process which focuses on the Shared Education programmes.

After consideration of issues such as funding and the participation of partner schools, we have decided that we will **NOT** be participating in Shared Education inspections.

Please be aware that schools under Formal Intervention are exempted from the action to allow them to move forward.

If you have any further queries please contact HQ on 02890662216.
